

# Home Offices

Free up that spare bedroom or dining room and invest in a designated workspace in the garden. Home Offices are not only useful but will also add value to your property. If the Home Office is no longer needed the cabin can be used for guests or a games room as an alternative!

DSD Buildings Ltd design and build Home Offices specifically for each individual customer. Windows and doors can be placed to suit your outlook and to create as much natural light possible. Additional facilities such as a kitchen and/or WC can easily be incorporated into the design.

DSD Buildings Ltd offer planning services through to complete erection and landscaping according the requirements of the customer.

Let us furnish your office for you – we can provide a choice of packages to kit out your new office with furniture and storage facilities.

To discuss your particular cabin requirements please feel free to call us for more information or a free, no obligation quotation.

**Environmentally friendly**  
We ensure we only use timber from sustainable sources with established replanting policies.

All cabins are constructed from selected kiln dried Nordic pine, the wood of choice because of its superior stability, limited shrinkage, light weight and beautiful grain.

## Benefits of timber

Materials used are of the highest environmental quality. Cabins fitted with our flooring will find that the air quality improves particularly for asthma and allergy sufferers. Wood is a natural insulation material, so our log cabins are extremely energy efficient. The thousands of tiny air pockets trapped in every square inch of the wood's structure slow the transfer of heat through the log, keeping the cabins warm in winter and cool in summer thereby, ultimately saving money on fuel bills. With our extensive Wood Treatment Programme using superior products you can ensure a long life expectancy for your Home Office.
